

Hrishikesh Kurapati

+91 7995476044 | hrishikesh.kurapati@gmail.com

SUMMARY

Motivated Computer Science student with strong foundations in **full-stack development, machine learning, and cloud technologies**. Skilled in **TypeScript, Python, React, Node.js**, and **modern ML frameworks** such as PyTorch and TensorFlow. Experienced in building end-to-end applications and **research-oriented projects**, with a focus on scalable architectures and applied AI. Passionate about **solving real-world problems** through **data-driven solutions** and **aspiring to grow as a Machine Learning Engineer**.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering**
Indian Institute of Information Technology Sri City, Andhra Pradesh | CGPA: 8.78* out of 10 | *Aug 2023 – May 2027**
- **Intermediate in MPC**
Resonance Junior College | CGPA: 9.68 out of 10 | *2021 – 2023*
- **Schooling**
Presidency High School | Board Exam CGPA : 10 out of 10 | *2011 - 2021*

TECHNICAL PROFICIENCIES

Technologies: TypeScript, JavaScript (ES2023), Python, Java, SQL, HTML5, CSS3, React, Node.js, Express.js
Frameworks and Libraries: Scikit-learn, Tensorflow, PyTorch, Redux Toolkit
Cloud & Back-End: AWS, Aneka
Tools & DevOps: Git, GitHub, GitHub Actions
Areas of Expertise: Full-Stack Development, Machine Learning, Deep Learning, API Development, UI/UX(Tailwind)

PROJECTS **Mental health Classifier — AI-assisted mental health sentiment analysis** **May 2025 – Aug 2025**

Role: Founder / Full-Stack Developer

- **Built fine-tuned Longformer model** trained on 40k mental health samples from Reddit, Twitter, and synthetic datasets, **achieving 89% F1-score** for multi-label classification.
 - **Developed cross-platform web app**(Gradio · Hugging Face Spaces) with SHAP explainability, Cohere API summarization, and real-time mental health classification.
 - **Created comprehensive data pipeline** processing Reddit posts, PsychForums, and 20k+ synthetic journals with automated labelling, scraping, and dataset merging workflows.
 - **Deployed production-ready model** on Hugging Face Hub for integration into wellness apps and therapy platforms with privacy-first design.
-

CollabSync — Infleuncer Marketing Platform

January 2025 – Present

Role: Backend Developer

- **Built scalable RESTful API architecture** using Node.js and Express.js, managing a multi-role authentication system for Brands, Influencers, Admins, and Customers with JWT-based security and session management.
- **Developed a comprehensive MongoDB database schema** with Mongoose ODM, handling campaign management, collaboration workflows, user profiles, and real-time analytics with optimized queries and data relationships.
- **Deployed production-ready backend APIs** with comprehensive error handling, data validation, and admin panel functionality, supporting frontend applications with real-time collaboration management and performance tracking.

YelpCamp — Campground Discovery Platform

Dec 2024 – Aug 2025

Role: Full-Stack Developer

- **Architected and developed a comprehensive campground discovery platform** using Node.js, Express.js, and MongoDB.
- **Built a secure RESTful API** with Express.js, implementing CRUD operations for campgrounds, user authentication, and reviews.
- **Designed robust MongoDB schemas** for users, campgrounds, and reviews using Mongoose.
- **Integrated third-party services** including Cloudinary for image management and MapTiler for interactive maps.
- **Developed a responsive UI** with EJS and Bootstrap 5, featuring dynamic image galleries, a 5-star rating system, and an intuitive flash messaging system.
- **Implemented enterprise-grade security** with Helmet.js, Passport.js, and Joi validation to prevent common attacks.
- **Deployed a production-ready application** with a modular MVC architecture for maintainability.

CERTIFICATIONS

1. Generative AI with large Language Models, AWS(Coursera)
2. Deep Learning Specialization, DeepLearning.AI(Coursera)
3. Machine Learning Specialization, DeepLearning.AI(Coursera)
4. Web Developer Bootcamp 2025, Colt Steele(Udemy)
